VOTED via consent agenda to adopt the Juneteenth Proclamation, as presented.

Hanneke stated she and De Angelis co-sponsored the proclamation and the Town Manager’s office is the community sponsor.

Hanneke read a portion of the proclamation.

Brewer spoke about Amherst’s local history of Juneteenth, thanked several community organizers and families who have been organizing celebrations in Amherst since 2013, and stated it has been wonderful to see the progress of the event.

b. Resolution in support of HR40/S40 Bills in Congress, Commission to Study and Develop Reparation Proposals for African Americans Act

Hanneke stated this is a resolution supporting HR 40, which is a bill to create a commission to study and would create a commission at the federal level for reparations. Hanneke read a portion of the resolution.

Brewer, asked the Clerk of the Council to amend the motion title to be more specific than, “Bills in congress” so it complies with open meeting law standards, and stated she is unaware of a National Reparations Day.

Hanneke stated the timing to act on the National Reparations Day has passed.

MOTION: Griesemer moved, second by Hanneke, to adopt the Resolution in support of HR40/S40 Bills in Congress, Commission to Study and Develop Reparation Proposals for African Americans Act, as amended by adding the words “Commission to Study and Develop Reparation Proposals for African Americans Act” and removing the word “American” so that the Community Sponsor name reads Amherst African Heritage Residents for Reparations.

MOTION: Brewer moved, second by Swartz, to amend the proclamation by removing the paragraph that reads “NOW THEREFORE BE IT RESOLVED, that the Town Council of Amherst hereby recognizes the date of February 25th of each year as National Reparations Awareness Day; and” and removing the words “be it further resolved” from the following paragraph and replacing it with “Now therefore be it resolved.”

Ryan agreed with the amendment.

VOTED unanimously, 13-0 by roll call, to adopt the Resolution in support of HR40/S40 Bills in Congress, Commission to Study and Develop Reparation Proposals for African Americans Act, as amended by adding the words “Commission to Study and Develop Reparation Proposals for African Americans Act” and removing the word “American” so that the Community Sponsor name reads Amherst African Heritage Residents for Reparations, as amended by removing the paragraph that reads “NOW THEREFORE BE IT RESOLVED, that the Town Council of Amherst hereby recognizes the date of February 25th of each year as National Reparations Awareness Day; and” and removing the words “be it further resolved” from the following paragraph and replacing it with “Now therefore be it resolved.”

c. Resolution in support of H. 912 An Act Relative to Forest Protection and H. 1002 An Act to Increase Protection of Wildlife Management Areas

Schoen praised the sponsors and spoke in favor of adding a sentence in the second the last paragraph that summarizes what each of the bills does for ease of communication.

Councilors discussed the need for a section that summarizes the bills that the resolution supports.

Eleanor and Macy stated the suggestion is valid, it does make sense that if people are reading this they want to know the purpose of the bills, but are satisfied with the way it is.

Councilors spoke about expectations of the Governance, Organization, and Legislation Committee review.

MOTION: Griesemer moved, seconded by De Angelis to adopt the Resolution in support of H. 912 An Act Relative to Forest Protection and H. 1002 An Act to Increase Protection of Wildlife Management Areas, as presented.

Griesemer thanked the sponsors and their teacher Tim Austin.

Agenda Item 8.d. Action Items: FY22 Budget

Steinberg clarified a statement towards end of the Finance Committee report about reparations. Previous report mistakenly stated the proposal was based on transfers from free cash to a stabilization fund, and it should have said that it would be based on an amount equal to cannabis tax revenue. The committee did not agree whether the cannabis tax revenue should be the funding stream moving forward.

Hanneke asked the Town Manager about the goal of FY22 staffing.

Town Manager Bockelman spoke about the creation of the office of Diversity Equity and Inclusion, the CRESS program implementation, and the aggressive timeline to get the program up and running with lots of questions to be answered.

Senior Center Director Mary Beth Ogulewicz spoke about staffing patterns and estimates of need, use of historical 911 data, the Kennedy School experts who can assist, and unknowns about the types of calls and how the community will access the program. Ogulewicz spoke about similar programs in Olympia, WA, Denver, CO, and Austin, TX. Each community has a different need, desire for coverage, some target downtown, some target high population locations, and Amherst has to figure out our unique need.

Bahl-Milne asked about responsiveness to a greater need than expected, and building peer responder networks.

Ogulewicz spoke about different program models, advantages and disadvantages to both, the agencies in Amherst currently lack the capacity to partner at this time but a partnership could be developed if that capacity changes in the future.

Finance Director Sean Mangano spoke about the transitional year of revenues and that if the data indicates there is a need for additional responders and the revenues allow for it that is something the Council and Town Manager can consider in future budget years.

Pam asked about starting wages.

Brewer asked that a memo from the Town Manager be added to the packet so that the public can access it, and spoke about moving the program out of the social services section of the budget and moving the School Committee stipends out of the Council section.

Schoen spoke about funding for the CRESS program in future budgets, and setting priorities and build the program over time.

Swartz spoke about the optics of presenting the CRESS program with police representatives present, that it appears we are still oriented toward traditional policing, and spoke in opposition to adding officers.

Bahl-Milne spoke about creating a sense of safety for BIPOC groups, important to keep that in the center, as we shift the paradigm of policing and safety, that we currently bring in people who are police who have been working in our communities, many of them doing the best of their ability in the old model, the idea is not to now shed their voices, can we create a circle who are inviting people who are going to be impacted, and policing is going to be impacted.

Bockelman stated the budget includes funding for two fewer officers than the current year, and that the vacancies have not been an issue because universities were depopulated.

Steinberg stated a point was raised in the Finance Committee report that we will not know how to balance police staffing and CRESS responders for some time.

Griesemer spoke about a vote taken at Finance Committee that sought to direct the Town Manager to seek additional funds for CRESS staffing.

Swartz asked Steinberg to be sensitive of survivors of domestic violence when speaking about it.

Du Mont spoke in praise of the sustainability fund, hope to increase it in the future, and spoke about climate action in the budget.

Du Mont spoke about expenses related to climate action like roof repairs and HVAC systems.

Bahl- Milne asked about the CSWG proposed youth center.

Bockelman responded that once there is a Diversity Equity and Inclusion (DEI) Director hired they can work on that.

Brewer stated that given the DEI Director's various responsibilities, it is unreasonable that they also take on economic development.

7. Presentations and Discussion

a. Update on Governor's Order/Remote Meetings

Bockelman spoke about the end of the state of emergency on June 15, the implications of that on public meetings, and pending legislation to continue remote meetings for public bodies.

Brewer spoke about the pending legislation and her advocacy work with Senator Comerford and Representative Domb.

Griesemer spoke about integrating Zoom with an in-person meeting on June 21 to allow for virtual public comment.

Pam spoke in support of virtual public comment and stated she would like in-person district meetings to resume.

Bockelman stated that in-person district meetings may take place now.

Hanneke spoke in opposition to fully remote meetings after June 15, stating that the state of emergency will have ended and that the science says meetings can be held safely indoors, she is not in support of continuing virtual meetings if legislation allows us to do so, that students have been in schools, interviews are better conducted in person, that meetings are better conducted in person, and that she would support virtual public comment at in-person meetings.

Brewer spoke in support of virtual public comment, and stated that she plans to attend meetings virtually through June.

De Angelis spoke about the greater public involvement at virtual meetings, and in support of hybrid meetings.

Schreiber spoke about other states that have allowed virtual public meetings for a long time, and that it has been eye-opening to see the increased engagement at virtual meetings, noted many people vacation in the summer and it would be frustrating for those folks to not have virtual access to meetings in the summer, and spoke in support of continuing virtual meetings for the Council through the summer.

DuMont agreed with Schreiber and added that she would meet via remote participation, and asked if it would be possible to ask for vaccination status at meetings.

Bockelman spoke about the Town staff capacity to support hybrid meetings.

Schoen agreed with Schreiber that the Council should continue virtual meetings until September, and spoke about the Elementary School Building Committee that has been meeting virtually early in the morning and that asking people to be physically present could pose an issue for members.

Bahl Milne spoke in support of hybrid meetings, and stated that if meetings are held in-person only that would present a problem for her.

Pam spoke in favor of in-person meetings and agreed that virtual public access has been a benefit.

Bockelman stated IT is working on the hybrid format, which it will require more staff support than in-person or remote meetings, and that consistency and clarity of the meeting format for the public should be a consideration.

Mooring said that we hope to bring that back to the Council in the future, which is the long-term plan.

Hanneke spoke in favor of approval without referral.

Hanneke asked about easements for the pedestrian bridge, and about plans to pave Mill Lane.

Brewer stated not everybody is ready to pave Mill Lane. Brewer asked if there is a plan to increase safety at the light at East Hadley Road and Mill Lane.
