Re: Recreation Proposal for Baseball Fields

Date: February 24, 2015

---

At the Committee's February 10 meeting, a member of the Committee requested that Amherst Baseball, Inc. provide a list of priorities in the event its proposal was not awarded full funding. The Board of Directors respectfully asks the Commission consider the full request in light of the urgent need to reconstruct the Mill River baseball fields and the energy that the all-volunteer Board of Directors has to complete this project in the coming year.

If the Committee does not vote to recommend full-funding, the following are the separate elements of the proposal listed in order of priority:

1. Excavation and Reconstruction of Baseball Infields: \$75,651
2. Installation of Water Service: \$10,000
3. Construction of Dugouts: \$32,000
4. Removal and Replacement of Batting Cages: \$7,000
5. Installation of Electric Service: \$2,000
6. Replacement of Fence Protectors: \$700

Thank you again for your consideration of our proposal.

The Board of Directors,  
Amherst Baseball, Inc.
